## The Ladder Stand-Off

There are many stand-offs around but a couple of features make our stand-off unique:

- Wheels assist in running up the wall and stop sideways slip
- A central vee-notch enables the ladder to be used on corners

The stand-off is constructed of lightweight aluminium with zinc plated fixing and springs making it light and easy to use.

As with all our equipment the stand-off can be used in conjunction with our other products to provide a secure and safe working environment.
